

Time interval: - 10-02-2021 to 14-02-2021

Periodic Progress Report (PPR): - Second PPR

Project: - Notes - Marketplace

Q-1.What progress you have made in the project?

In our project we have made a complete database design including all the required tables.

Q-2.What challenge you have faced?

Challenge was faced when designing a database is that how we can give a constraint in table which is help full to retrieve the data using join two or more table.

Q-3.What support you need?

We need some idea how to add a constraint on table for more efficient design of the database.

Q-4.Which literature you have referred?

https://www.w3schools.com/sql/sql_ref_add_constraint.asp/ we used this website to know basic idea of how to add a constraint in two tables.
